Part I.

Rejection(s) discussed:

None

Claims discussed:

None

Prior art documents discussed:

None

Part II.

SUBSTANCE OF INTERVIEW DESCRIBING THE GENERAL NATURE OF WHAT WAS DISCUSSED:

See Continuation Sheet

Part III.

☐ It is not necessary for applicant to provide a separate record of the substance of the interview, since the interview directly resulted in the allowance of the application. The examiner will provide a written summary of the substance of the interview in the Notice of Allowability.

☐ It is not necessary for applicant to provide a separate record of the substance of the interview, since the interview did not result in resolution of all issues. A brief summary by the examiner appears in Part II above.

(Applicant/Applicant's Representative Signature – if appropriate)

Continuation of Substance of Interview including description of the general nature of what was discussed: The Examiner called to verify whether the stereochemical designation at the beginning of the name of the penultimated NK1 receptor antagonist recited in Applicants' claim 1, part (b) was correct. Mr. Sopp indicated it was correct, and also indicated that there was a minor error in the chemical name of the third compound recited on the 2nd page of claim 1, wherein "... (p-tolylacetyl)-N-D-..." should read, "... (p-tolylacetyl)-N-(methyl)-D-..." Applicants are kindly requested to double check all the chemical names of the NK1 receptor antagonists recited in part (b) of claim 1 for any additional typographical or nomenclature errors and to make corrections as appropriate. .
